

# The People's Press.

SALEM, N. C.

THURSDAY, JULY 20, 1882.

[Entered as second-class matter at the Post Office at Salem, N. C.]

THE PEOPLE'S PRESS  
FOR 1882.  
ENLARGED AND IMPROVED.

\$1.50 A YEAR.

The Press' entered its thirteenth (30th) volume on July 1st, 1882, and continues to increase in size and interest. It will be our endeavor to make the Press more interesting and entertaining than ever.

L. V. & E. T. BLUM,  
Salem, N. C., Jan. 1, 1882.

## DEMOCRATIC TICKET.

Election November 7th.

REPRESENTATIVE AT LARGE:  
RISDEN T. BENNETT,  
of Anson County.

SUPREME COURT JUDGE:  
THOMAS RUFFIN,  
of Orange Co.

SUPERIOR COURT JUDGE:  
First District—JAMES E. SHEPPARD,  
Second District—ALFRED M. MCNAUL,  
Third District—ALMADAN A. McKOY,  
Fourth District—JAMES C. McRAE,  
Fifth District—JOHN G. GILMER,  
Sixth District—WILLIAM M. SHIFF.

Mrs. Abraham Lincoln died on Sunday night last.

The United States has 40,000 Post offices and 20,000 Railroad stations within her borders.

A Shetland pony man at Mauch Chunk, Pa., has a colt, weighing 12 pounds, and measures 19 inches in height.

The Texas corn crop will reach 140,000,000 bushels, doubling that of last year.

An immense meteor exploded over Kingston, illuminating a large tract of country, and causing a shock like that of an earthquake.

Great Britain spends on its army and navy \$125,000,000 and the Egyptian war will bring the sum to \$200,000,000 if it costs as much as that expensive adventure, the Afghan war.

J. Van Lindley, on Saturday, gained his suit against the Richmond & Danville railroad for damages sustained in the delivery of fruit trees during the winter of 1880-81. This suit is one of a number and both parties agreed that it should be a test case—letting all others depend upon the issue in this one. The verdict in this case was only for \$433 with interest, but the combined suits amount to nearly \$10,000. An appeal was taken by the railroad.

Daily Bugle.

The National Tobacco Association have unanimously agreed to seek for the reduction of the tobacco tax to eight cents, to take effect January the 1, 1883. They recommend also that the tax on cigars be reduced to \$2.50 and on cigarettes to 5 cents a thousand.

And the Republican caucus has unanimously resolved that it should not be done. The people may groan under this iniquitous burden, but it has been decreed by the Republican party that they shall endure it.

Patriot.

The following is the official copy of Judge R. T. Bennett's letter accepting the recent nomination for Congressman-at-large by the Democratic State Convention.

WADESBORO, N. C., July 11, '82. Col. Paul M. Means, Robert L. Steele and Harry Skinner, Committee:

Sirs: I accept the nomination for Congressman-at-large tendered me by the Democratic Convention through you, and am ready to begin the campaign.

I am very truly,

RISDEN T. BENNETT.

A Book for All.

One of the most valuable works in print is "Gaskell's Compendium of Forms," educational, social, legal and commercial. This book is now being introduced to the public by Prof. L. H. Roberts. It contains more valuable information on all practical subjects than any work it has ever been our pleasure to examine. Among its special features may be mentioned the following: A complete self-teaching course of penmanship and book-keeping, and aid to English composition, including orthography, capital letters, punctuation, composition, elocution, oratory rhetoric, the laws of business and commercial forms, complete dictionary of legal and commercial terms, 20,000 synonyms, abbreviations, foreign phrases, poetry, etc. Also a manual of agriculture and mechanics, with a complete guide to Parliamentary practice, rules of order for deliberative assemblies, organization and conduct of meetings, etc., game laws of the United States and the Provinces.

Prof. Roberts is taking subscriptions for this work, which should be in every library and on every business desk. He has been quite successful so far.

Physicians say it combines all the desiderata of every foraging tonic prescribed by every school of medicine. Brown's Iron Bitters.

### From Washington.

WASHINGTON, July 10th.—The process of boiling Guiteau's body in the vats of the Medical Museum, and the removal of the flesh therefrom, was completed last Saturday, and after the bones had been scraped they were removed to the roof of the museum to be bleached in the sun. The bleaching process will continue for a couple of weeks, when the skeleton will be articulated and placed in the case that has been prepared for it. It is said that the museum authorities took the quadriceps extensor, deltoid, and sternocleido mastoid muscles out of the boiler, and after dividing them into small pieces, placed the pieces in jars of alcohol, and distributed them among many medical men in the city.

WASHINGTON, July 11.—The return of the Department of Agriculture from all the States and Territories of the United States indicate an increase of area planted in corn exceeding 4 per cent., or fully two and a half million acres. In Ohio, Indiana and Illinois there has been less of acreage, but in all other States of any prominence in corn-growing, there is some increase. In the Gulf States the advance has been heavy, in obedience to the instinct of self-preservation, the usual result of high prices.

North Carolina makes 3 per cent. increase; Virginia 5 per cent.; Louisiana and Tennessee 6 per cent.; South Carolina, Florida, Arkansas and Kentucky 9 per cent.; Georgia and Alabama 13 per cent. The crop is generally in fair vigor and active growth, promising a far better condition in August should the season continue as favorable as at this date. The general average is 85, against 90 in July of last year, before the disastrous drouths set in. It is above 100 in all of the sea coast States from South Carolina to Texas; in Tennessee, Kentucky and Kansas; in Oregon and Nevada it stands at 100; Arkansas at 97; North Carolina at 95.

The condition of winter wheat averages higher than at any previous year. Unless the proportion of wheat to straw be less than usual, or the grain be damaged after threshing, the crop must prove one of the largest ever garnered in this country.

The condition of oats is very high, averaging 103; of rice, 101; of barley, 95. Cereals (corn alone excepted) all promise a yield for acreage above the average.

**An Important Matter for Tax-Payers.** From Raleigh News-Observer's Report of Judge Merrimon's Speech.

He referred to the great debt, amounting now to over \$20,000,000 which the Republican Legislature had in 1868-69 created by issuing bonds. This debt was so fraudulent that these very Radical legislators were forced by public opinion to repudiate it themselves before they went out of power. Now the bondholders have secured legislation at the North enabling them to bring suit in the name of their States against other States purporting to issue bonds, like those of fraudulent special tax bonds, and such a suit has been argued in the Supreme Court of the United States. It is proposed, if the Federal Court will take jurisdiction, to bring suit against our people. The object of this suit will be to recover from more than \$20,000,000. Now, what are the people going to do about it? Standing in the shadow of their danger, are they going to put back in power the very men who issued these fraudulent bonds? It is a serious question. It addresses itself to every tax-payer and to every citizen.

Here are Venner's July weather predictions: 17, 18, 19 and 20. A heated term generally with thunder storms and hail storms in Northern States. Very oppressive. Daily reports of damaging storms of winds and lightnings. A very muggy period with hot winds. 21 and 22. Showers, cloudy and cooler at night. Windy and cooler, a decided change in weather. 23. Fair and warm, cool nights. 24. Cool and moist winds. Rain West and South. 25. Oppressive and windy, storms brewing, cool nights. 26. Frequent rains and much cooler. Windy weather. 27. Cool with cold to cold nights. 28. Very fine and pleasant in majority of sections. 29. Warmer again with storm clouds. 30. Unsettled and showery. Stormy. 31. Cloudy and showery. Period of storms, cool nights, much more rain latter part than fore part of month in northern and middle sections.

ALEXANDRIA, July 12—1:30 p. m.—The British naval officer has furnished me the following account of the day's operations: The bombardment commenced at 7:45 this morning. The iron clad Superb, Sultan and Alexandria were engaged and totally destroyed Fort Pharos and the light house batteries, which are at the entrance to the new port, and were intended to dominate the approach to the inner harbor. The flagship Invincible, the Monarch and the Penelope, took up commanding positions inside the reefs and were assisted from the outside by the Temeraire, which attacked with destructive effect the strong position of Fort Mex with the light house and shore batteries. The Inflexible was stationed so as to command the light house batteries. Fort Mex at the same time, and was thus in a position to co-operate both with the division outside and that inside the reefs. The gun-vessels Bittern, Condor, Beacon, Decoy and Cygnet attacked the Marabout batteries at the entrance of the harbor, and taking a close and destructive range soon silenced them; after which they ran in and shelled Fort Mex on the southern side of the entrance to the anchorage or the outer harbor. The Invincible, under cover of her own guns and those of the Bittern, landed a party of blue jackets and marines, who entered Fort Mex and blew up the heavy guns. The bombardment practically ceased at noon. On the whole, the Egyptians fought their batteries with more determination than had been expected. Several of the earthworks, behind which the guns were mounted, were found to be mere heaps of sand.

ALEXANDRIA, July 12—1:30 p. m.—A flag of truce is shown from the town, and a vessel steaming toward the fleet is also displaying a flag of truce.

London, July 12.—The Standard's correspondent on board the Invincible is in receipt of a telegram from some point in Alabama that McKinsey the manufacturer of Goods in this country some three years ago has been caught and is ready to be delivered over to the authorities of the State. The telegram is said to be from a party who knows McKinsey. The sheriff will wait for the Governor's requisition.

More universally recommended than any proprietary medicine made, A sure and reliable tonic, Brown's Iron Bitters.

### The Egyptian War.

Our readers are familiar with the English-Egyptian war rumors, which have at last culminated in the bombardment of Alexandria, resulting as all predicted in the demolishing of the fortifications and the occupation of the city by the British forces. The following is a brief sketch of the origin of the trouble.

In 1876 the Egyptian Government was in an alarming condition financially, and then the Khedive, Ismail Pasha, was ruling the country with a high hand and squandering money in the most reckless fashion. The interests of bond holders were seriously threatened, and England and France had reason to believe that their supremacy over the Suez Canal was in peril. Those two powers decided upon intervention. They informed ISMAIL PASHA in the Palace, which is garrisoned by seven hundred marines.

AIRMAN says the following: Alexandria 16th, 4 p. m.: I visited the American Consulate to-day, and found it occupied by sixty American Marines and twenty Sailors, with a small gun. The houses around being on fire the Americans were preparing to blow them up, in order to save the consulate. How the Americans managed to get gun powder into the square is a mystery, as the air is literally full of sparks, however they succeeded and brought down the houses in the vicinity of the consulate and the palace of justice. So bad was the condition of the streets that the American insisted on guarding us to our landing place, many cut-throats being abroad.

The English occupy the palace of justice as their consulate, and the French have taken the hotel Abbott for a similar purpose. The Americans are sending out parties to bury the dead. The English are pumping water on the burning houses.

ADMIRAL Seymour telegraphs: "I have occupied Ras El-Tin Palace with the marines, and spiked the guns in six batteries opposite. The city is still burning, but I am clearing the streets. The Khedive is safe in the Palace, which is garrisoned by seven hundred marines."

AIRMAN says the following: Alexandria, July 14.—The firing heard in Alexandria yesterday was by the marines and sailors, who were dispersing plunderers, with Carl Gattlin guns. The Khedive believes the people of Cairo will not permit Arabi to loot that city. Last night a strong band of Arabs entered Alexandria and killed a number of loyal Egyptian soldiers.

London, July 14.—A dispatch from AIRMAN says the following: Alexandria, dated 4 P. M., says that the town is totally ruined. All the houses from the Great Square to the Custom House have been plundered. In the Square itself and other wealthy European quarters, there is hardly a building not either ruined or still burning. The streets are strewn with empty clock and jewel cases and similar debris. Two-thirds of the troops deserted during the bombardment. Arabi Pasha is at Kefredewar, about an hour's journey from Alexandria, where he is reported to be entrenching. The troops have blown up the railway between himself and Alexandria. Gen. Stone, an American, formerly a great friend of Arabi Pasha, escaped with the Khedive, but left his family at Cairo. I interviewed the Khedive's private secretary, after the Khedive got afloat. He informed me that on this morning after the bombardment Arabi Pasha suddenly ordered a detachment of soldiers to surround the Ramleh Palace, where the Khedive and Dervish Pasha were awaiting the issue.

AIRMAN says the following: Alexandria, sent at 9:15 this evening, says that a strong body of men from the fleet, joined by detachments from neutral ships, has gone ashore to stop looting and incendiaries.

London, July 14, 2 p. m.—A dispatch from AIRMAN dated 9:30 A. M. says: "Explosions occasionally occur in the city. A proclamation in Arabic is preparing in the Khedive's name, calling on the people to maintain order, and on the troops to disband. The Khedive, with Dervish Pasha, and some of the Ministers and the Khedive's harem, has arrived on board a vessel in the harbor. About five hundred loyal troops follow the Khedive. It is stated that Arabi Pasha has only four thousand very much disorganized troops. Two hundred marines have been ordered to march through the town and shoot all persons rioting."

AIRMAN says the following: Alexandria, July 15—1 p. m.—A dispatch from AIRMAN dated 9:30 A. M. says: "Explosions occasionally occur in the city. THURSDAY, JULY 20, 1882.

## LOCAL ITEMS.

New Moon last Saturday morning. Day's length to-day 14 hours, 6 minutes. 201 days of the year past, 164 to come.

We call attention to ice advertising.

C. W. Woodward and two sisters are at the Salem Hotel.

Mrs. E. A. Ebert and children are among the mountains.

Turner has our thanks for a fine lot of tomatoes.

Robert Belo and lady, of Raleigh, are visiting friends here.

Prof. A. Minung and lady are visiting friends at Bethlehem, Pa.

Advertisement of New Garden Boarding School in another column.

Mrs. C. A. Fogle is at Wytheville, Va., with her sister, Mrs. Ewald.

O. H. Perry, of Raleigh, has been at Salem Hotel for the past few days.

Mr. and Mrs. Wyatt, of Raleigh, were the guests Dr. Hunter last week.

Stokes County Special Superior Court is in session. Judge Gilmer presiding.

The store-house at Five Forks, on the Mount Airy stage line, has been stocked with goods.

B. F. Crosland has a dwarf peach tree in his yard, not more than a foot high, with peaches on it.

H. W. Fries left Sunday evening for Asheville, Warm Springs and other points in Western North Carolina.

Internal Revenue Collections, Fifth District, for the week ending Saturday, July 15, 1882: \$25,265.

Rev. L. B. Wurreschke and son, Reinholt, have returned home from their pedestrian ramble in the mountain country.

Irish potatoes are turning out fine this season both as to size and quantity, and the yield will be larger than it has been for a number of years.

Calvin Hauser wants some muskrat skins. The rats must be caught in his corn patch. If caught elsewhere the skins are not wanted.

Out of 29,000 pounds of peaches that passed through the express office at Greensboro, the other day, 18,000 pounds were from this place.

On F. W. Meller's lot on Salt street is an almond tree bearing fruit. The tree and fruit resembles the peach very much.

T. R. Purnell and family, of Raleigh, arrived on Saturday night, and are the guests of Miss Mary Zevely—Mrs. Purnell's sister—at the Zevely homestead.

T. Vogler and lady and Mrs. Wm. Detmar, left for Ashe County, today (Thursday) to spend several weeks with relatives and friends there.

Bernard Wurreschke caught an eel in the Salem Mill race on Monday, which measured over two feet in length, and over five inches in circumference.

Some tobacco raisers complain that the leaves of their tobacco this season are too narrow and "dog-eared," while others say their's is running to seed too early.

Calvin Hauser, of this place, has a full-blooded bulldog which tilts the scales at 85 pounds. He is as ferocious a looking animal as a person cares to meet.

Charles Cecil had his arm so badly injured by a threshing machine, at George Kinney's, in Davidson county, last week, that it had to be amputated.

Our young friend, Lewis Porter, was the recipient of a very pleasant surprise party, given him by a number of his young friends, on Thursday night of last week.

The German carp in Mr. Best's fish pond are very fine and so tame that they come to the surface of the water for food thrown in by persons on the bank.

G. A. Reich, of this place, raised an Irish potato, this season, weighing one pound and three quarters. August Rogge, raised one in the Academy garden weighing the same as Mr. Reich's.

Some of the streets are getting a rank growth of weeds and bushes on them, which not only spoils the looks of the streets but makes it disagreeable for persons who have to travel them in wet weather.

E. Looper, who has been carrying on the confectionery business in this place for several months, has rented the Wilson Hotel, in Winston, and will carry on his business there.

Mrs. J. H. Ennis & Son, publishers of the *North Carolina Farmer*, Raleigh, have favored us with a copy of the Southern Prize Turnip seed, 25 cents an ounce. Thanks, send for a package.

The Williard Bros., brick makers, are now busy at their brick yard, on the old Wm. Ackerman place, near town, making two kilns of brick of 150,000 each. They find a ready sale for all the brick they can make.

Salem Home Sunday School had their annual picnic, this year at Friedland, on Thursday of last week. The day was fine, having rained the day before, laying the dust, and the teachers and scholars enjoyed themselves finely.

Joe Johnson, the colored gardener, is meeting with success in killing the bugs on cabbage by sprinkling salt taken from under old houses on the plants while the dew is on them. August Rogge, gardener at the Academy, tried it, and says: "Ish bug killed dead ash ter tyul."

Persons wishing to visit Beaufort and Morehead City, at lowest excursion rates, can purchase tickets of C. A. Hegel, at Salem Iron Works, at \$6.35 round trip, provided a party of 50 is secured.

McKinney has sold his house on Marshall street to John Spainhour. Mr. McKinney will leave for Greenville, S. C., to-morrow, to take charge of the weaving department in a large cotton factory there.

Private letters from Frankford, Indiana, state that Henry Watson, late of this section, was killed by a stroke of lightning near that place, we're last. His companion was also struck dead.

There is nothing like an industrious girl in a family. We hear of a young lady, who by being industrious and sticking close to her task, worked two mottos of "What is Home without a Mother," in the same time it took her mother to do the family wash.

Rev. Thomas Long, of Davidson county, killed a very large and fine specimen of blue crane last week.

Cranehead measured 7 feet 2 inches from bill to toe, and over six feet from tip to tip of wings. The bird was fishing in one of Mr. Long's fish ponds.

A large lot of Georgia water melons were brought to this place last week, from Greensboro, and found a ready sale here and in Winston. Our melon raisers will soon be in the market with their fine melons, and then old man Henry Reynolds, (Col.), will be happy as a June bug on a corn stalk.

Messrs. Westmoreland & McGhee having secured the services of Prof. Gus Rich, the magician, started out on a trip up the country last Monday, pitching their tent at Bethania (Hawthorne) same night. Prof. Rich never fails to please his audiences, and is better prepared than ever to give a first class show.

Sam. Brewer, the barber, who always keeps up with the times in modern shaving and hair cutting implements, has added to his already well furnished shop, one of the patent hair clippers, and can now cut hair so short that a person's head when coming from the machine has the appearance it did when he was born.

The Third Annual Meeting of the North Carolina Pharmaceutical Association will convene at the Opera House in Winston, N. C., Wednesday, August 9th, at 10 o'clock. A. M. The officers are Dr. S. J. Hinsdale, President, Fayetteville; Dr. John H. Hill, Chairman Executive Committee, Goldsboro; Dr. T. C. Smith, Secretary, Charlotte.

Peaches are finer and much better flavored now. The later varieties being much more toothsome than those of a few weeks ago. Heavy shipments still continue. Lineback Brothers shipped 15 crates one day last week. Messrs. Reynolds, Mickey, Spauld, and others, are shipping largely. Fine peaches bring very remunerative prices in Richmond and New York.

On the part of the Odd Fellows: G. M.—J. H. Masten. G. C.—S. D. Franklin. Treas.—C. Hamlen. Sec.—H. T. Foucht. Con.—W. W. Workman. G. W.—R. J. Hitt. D. G. M.—W. A. Walker. G. M.—J. C. Buxton.

On the part of the Masons: G. M.—J. Q. A. Bärham. D. G. M.—E. S. Jones. G. S. N.—Sam'l. H. Smith. G. J. W.—J. W. Alsop. G. Secretary.—N. S. Wilson. G. S. D.—S. A. Ogburn. G. J. D.—J. H. White. G. S.—J. A. Smith. G. W.—H. W. Miller. G. Marshall.—M. N. Williamson. G. Tiler.—F. E. Keehn. Republican.

KERNERSVILLE LETTER.

Messrs. Editors:—Just now the threshers are in their glory in this neighborhood, and it is given up that there never has been such a yield of small grain and Irish potatoes, and with a few more rains the corn crop will be safe. Mr. Moses M. Hasteen, near here, made 190 bushels of wheat, being an average of one bushel to every 22 bundles.

Mr. Henry Edwards has threshed out 55 bushels of wheat and is only about half done, and Mr. Vestal Perry will make about one thousand bushels of small grain on a place that 15 years ago was worn out by old time farming that it would hardly support a pig. Among the rest, he had one field, seven acres, of what we call "mixture," half bushel of oats, peck of wheat and a peck of rye, all sown together. This seven acres is common sandy land without any manure or fertilizer, and the yield threshed out was 180 bushels, good measure.

By the way, this "mixture" is going to become a regular institution in this country, and was first brought to notice by Professor John S. Ray, of this place. Years ago he owned a farm at Florence, in Guilford county, near "Beard's Hatter Shop," and there he experimented, and raised several crops, and when he came up here he tried to impress our farmers as to its value; and as the Professor is a clever gentleman, they listened to him respectfully; but as all great men have their "hobbies," so they concluded this was his, and set it down on the score of "book-learning," and of no practical value, until three years ago Mr. J. W. Beard and a few others tried it, and were surprised at the results, and last fall a number went into it, and the yield is several thousand bushels of excellent feed. If it is true, that he who makes two blades of grass grow where only one grew before, then Professor Ray is entitled to that honor, and the "mixture men" ought to send him on an acknowledgement in the way of grain enough to feed his pigs this year.

WETHANIA, N. C., July 17, 1882.

I send your for insertion, the following list of teachers, licensed by me during my examination, on the 13th, 14th and 15th inst.:

100 good empty Syrup and Molasses Barrels for sale cheap at FINCH BROS.

It was resolved by the Board of Directors of the Salem Water Supply Co., at their last meeting that the charge for 5,000 gallons or less per quarter shall not be less than \$2.50. The charge for consumption in excess of 5,000 gallons per quarter shall be 50 cents for each 1,000 gallons used. Parties who will put in meters at their own expense, shall have the cost refunded to them gradually by applying thereto the excess of their rates over and above the minimum charge of 1,000 per annum.

Rufus Liatt, a highly respected young man, died of typhoid fever near Midway on Monday of last week. He was about twenty-two years old and had been married about six or seven months.

The many friends of Baxter Shewell will be pleased to learn that his condition is very much improved. He is now able to sit up for an hour at a time. Strong hopes of his recovery are entertained.

The justices of the peace of Davidson County are required by law to meet on the first Monday in August to elect a board of county commissioners and county superintendent of public instruction.

Last Saturday while Daniel

Hill was engaged threshing grain at William Nading's Davidson county, he had his foot caught in the machinery; but escaped with a few bruises and some badly torn clothes.

It is surprising that he did not receive serious injuries. This is the second accident in connection with threshing machines. Men who handle machinery should be careful.

New Miller.

Having taken charge of the well known mill of Miss. J. E. Stafford, on Middle Fork Creek, two miles south of Salem, I will keep it in the best of order, and with my experience in the business will do first class work. Will keep for salt Flour, Meal, Wheat, Bran, Chops, &c.

J. E. PITTS.

HOW IT WAS DONE.

"How do you manage?" said a lady to her friend, "to appear so happy and good natured all the time?" "I always keep Parker's Ginger Tonic handy," was the reply, "and thus easily keep myself and family in good health. When I am well I always feel good naturally."

An Impossibility.

Deserving articles are always appreciated. The exceptional cleanliness of Parker's Hair Balsam makes it popular. Gray hairs are impossible with its occasional use.

BARGAINS! BARGAINS!

We have this day put our large stock of Parasols down at cost. Call early and get a good shade chap.

FINCH BRO.

—All sorts and sizes empty Boxes for sale cheap by FINCH & BRO.

MARRIED.

In Winston, on the 12th inst., by Rev. C. C. Dodson, T. P. STYRT to Miss F. C. STARK.

A FORSYTH COUNTY FAIR.

ALL PERSONS ARE INVITED TO BE PRESENT AUGUST 26th.

WACHOVIA MILLS, SALEM, N. C., July 17, 1882.

To the Farmers of Forsyth County:—Please again call the attention of our farmer friends to our premium wheat, and state that the contest will take place at Pace's Warehouse, Saturday, August 26th, 1882,

from 10 to 12 o'clock. At 2 P. M., Col. L. L. Polk, of Raleigh, will deliver an address of encouragement to the farmers. Premiums will be awarded according to the decision of gentlemen selected from Davie, Davidson, Guilford, Stokes and Yadkin. The premiums promised will be paid in cash in bushels best white wheat:

3 bushels best white wheat to person having 2nd quality white wheat;

3 bushels best red wheat to person having 2nd quality red wheat;

3 bushels best white wheat to person having 3rd quality red wheat.

Decisions will be rendered 1st by the clearest weight, 2nd by the yield per acre.

We propose the same premiums to the farmers of Forsyth for the next crop of wheat to be harvested in 1883.

V. H. FRIES.
